

Permanent Paint-Mask Bar Code Labels

Tired of having to reapply a bar code label after every paint job? Regular bar code labels will not stand up to repeat paint applications, but Metalcraft Permanent Paint-Mask Bar Code Labels will. These unique labels feature a special fluoropolymer laminate very similar to Teflon® coating in that it resists multiple paint applications (approximately 10-12), grease, even graffiti, and can withstand temperatures up to 400°F. After painting customers simply pick off the paint and are left with a clean, easy-to-scan polyester bar code label – a great solution for work-in-process.

Permanent Paint-Mask Bar Code Labels are produced using a subsurface printing process that protects the logos, copy and bar code against extreme solvents, caustics, acids and moderate abrasion. In addition, Metalcraft's digital printing process ensures even the most detailed logo will look crisp and clean. Standard colors available include black, red, yellow, green or blue.

Key Product Features

- Permanent paint-mask fluoropolymer laminate that is designed to resist multiple paintings (approximately 10-12) and can withstand temperatures up to 400°F
- Conforms to uneven or curved surfaces
- Subsurface printing protects against extreme solvents, caustics, acids and moderate abrasion
- Digital printing process ensures bar code readability as well as crisp, clean company logos

Permanent Paint-Mask Bar Code Labels Specifications

Material: .002" thick polyester; available in white or silver.

Serialization: Bar code and human-readable equivalent is produced using the latest high-resolution digital technology available, which provides excellent clarity and easy scanning. Code 39 is the standard symbology with a range of 2.7 to 9.4 CPI (characters per inch). Optional symbologies include Code 128, I 2 of 5 and 2D DataMatrix.

Although this product is primarily marketed as a bar code product, we can produce it with human-readable numbers only or unserialized. Call Metalcraft for information on either of these options.

Label Copy: The label copy may include block type, stylized type, logos or other designs. All copy, block type, stylized type, logos, designs and bar code are subsurface printed. This unique process provides excellent resistance to solvents, caustics, acids and moderate abrasion.

Colors: Standard colors include black, red, yellow, green and blue. Due to contrast needed for the bar code scanner, all bar codes are black.

Standard Sizes:

No. 029: 1 3/4" x 5/8"

No. 277: 2" x 3/4"

There are additional sizes available upon request. Send e-mail to metalcraft@idplate.com, fax request to 641-423-8898 or call 800-437-5283 and ask for customer service.

Adhesive: .002" thick pressure-sensitive adhesive (MC71FL). Adheres to uneven surfaces and even to slightly oily surfaces.

Packaging: Shipped on convenient rolls for ease of removal. Cleaning solution is provided to assist in applying to a clean surface. Cartons are clearly marked to indicate serial numbers of labels.

Shipment: 8 work days upon receipt of order and proof approval.

To Order: Call **1-800-437-5283** and ask for customer service.
