Printed Foil Labels - Unserialized - Price Schedule 255

STEP 1 - Determine Label Size:

- No. 001: 1 3/4" x 7/16"
- No. 002: 2 3/8" x 9/16"
- No. 033: 1 1/2" x 3/4"
- No. 277: 2" x 3/4"
- No. 019: 2" x 1"

Other sizes available; call Metalcraft.

STEP 2 - Determine Style and Color: Count all colors to determine style. Labels with two or more colors may include standard colors (black, blue, green, red, yellow, dark blue, gold, copper and purple) or PMS colors for an additional charge.

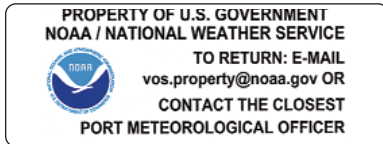

Actual Size Shown - #277 - 2" x 3/4" - Proof available upon request.

One-Color Style
Block type, stylized type or logos are printed in one standard color.

Two-Color Style
Block type, stylized type or logos select two standard colors. For PMS match color add \$50.00 per PMS color.

Three-Color Style
Block type, stylized type or logos select three standard colors. For PMS match color add \$50.00 per PMS color.

STEP 3 - Determine Label Copy: Please clearly print or type the wording, punctuation, serial numbers, and logo position. Send original logo or stylized type if applicable. Visit our web site at www.idplate.com for instructions regarding how to send electronic artwork.

STEP 4 - Determine Quantity: Order in multiples of 100, providing exact quantity required. We recommend a maximum order quantity of one year for pressure-sensitive adhesive due to the shelf life of the adhesive.

STEP 5 - Determine Price: Refer to prices per 100. Options available include:

- Logo change, add \$50.00 for each change.
- For PMS match color, add \$50.00 per PMS color.
- Copy or color OR both color and copy changes: \$25.00 each.
- For 4-color process, call for quote.

NOTE: You may combine orders for copy or color or both color and copy changes to take advantage of price for total quantity. The following policies apply:

- Labels must be the same size and type.
- All labels produced at the same time.
- Changes made in multiples of 100 with 300 minimum.

On-site printing: Clear coat makes aluminum receptive to permanent marker. Impact printing (i.e. typewriter or ball point pen) will permanently deboss the aluminum leaving an indentation even if the ink wears away.
