Discourage theft and keep your property intact with Metalcraft's Tamper-Evident Barcode Labels.

If someone attempts to remove the label, the word "VOID" is left behind on the surface of the asset and the back of the label. Add a barcode and/or human readable number to the label and use it as part of an overall asset tracking system.

Use these labels to make a statement about your company or school by displaying a logo or stylized type in any of our standard colors – or select a custom color at no additional charge. Subsurface printing provides an extra layer of protection for logos, copy and barcode against solvents, caustics/acids and mild abrasion. This unique process eliminates the need for a laminate thereby eliminating the additional cost as well as the possibility of delamination.

Potential Applications for Tamper Evident Barcode Labels

Asset Tracking – the barcode and human readable ID number on Tamper-Evident

Features	Clear visual indication the product has been opened or tampered with Custom printing to display any type of messaging Boosts customer confidence in product integrity Discourages product modification and theft
