

# Parking Permit Hang Tags

Perfect for temporary access control applications where you don't want permanent attachment to the windshield, the Rearview Mirror Tag is an optimal choice for access control in parking lots, gated communities and anywhere vehicles come and go. The logo and bar code are subsurface printed on thick polyester for durability and rigidity. Like the Windshield Tag, the Rearview Mirror Tag provides excellent read range; however, unlike the Windshield Tag, the Rearview Mirror Tag is completely removable and reusable.

Showcase company logos and designs with our digital printing process which ensures crisp details on even the most complex logos for maximum clarity. In addition, four color processing is available, combined with double-sided registered printing options, for limitless design and color options.

## Features

Unlimited color options with choice of up to four standard or custom colors  
Digital printing process provides for greater print capability with detailed logos or special designs  
Double-sided registered option available

## Product Print Options

Barcode . Data Matrix . QR Code .  
Serial Number . Text

## Product Functionality

Abrasion Resistance . Chemical Resistance . Heat Resistance .  
UV/Outdoor Durability

## Popular Applications

Theme parks . Hospitals . Schools
